

RETAILFIX NEARBY

The All and For you feeds

Scroll the latest posts from shops around you, or just the ones you follow.

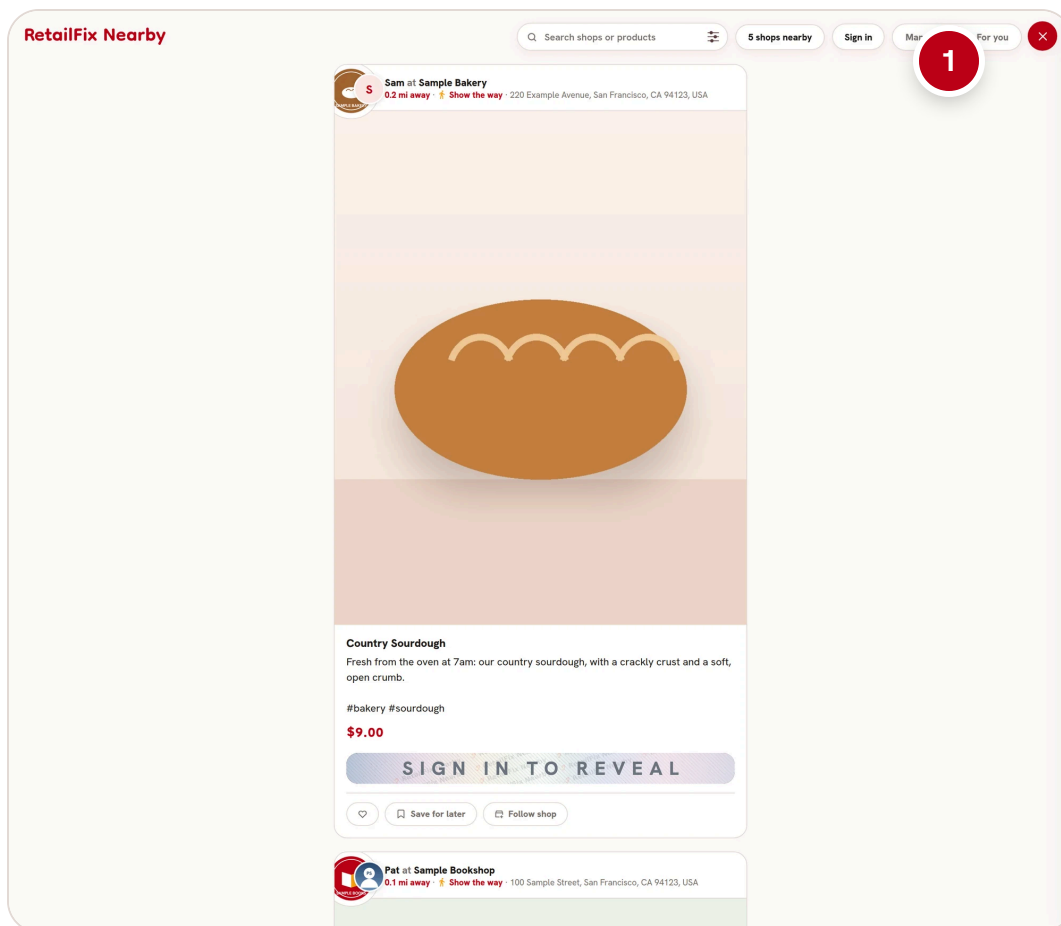

In this guide

1. All
2. For you
3. What's in For you

1 All

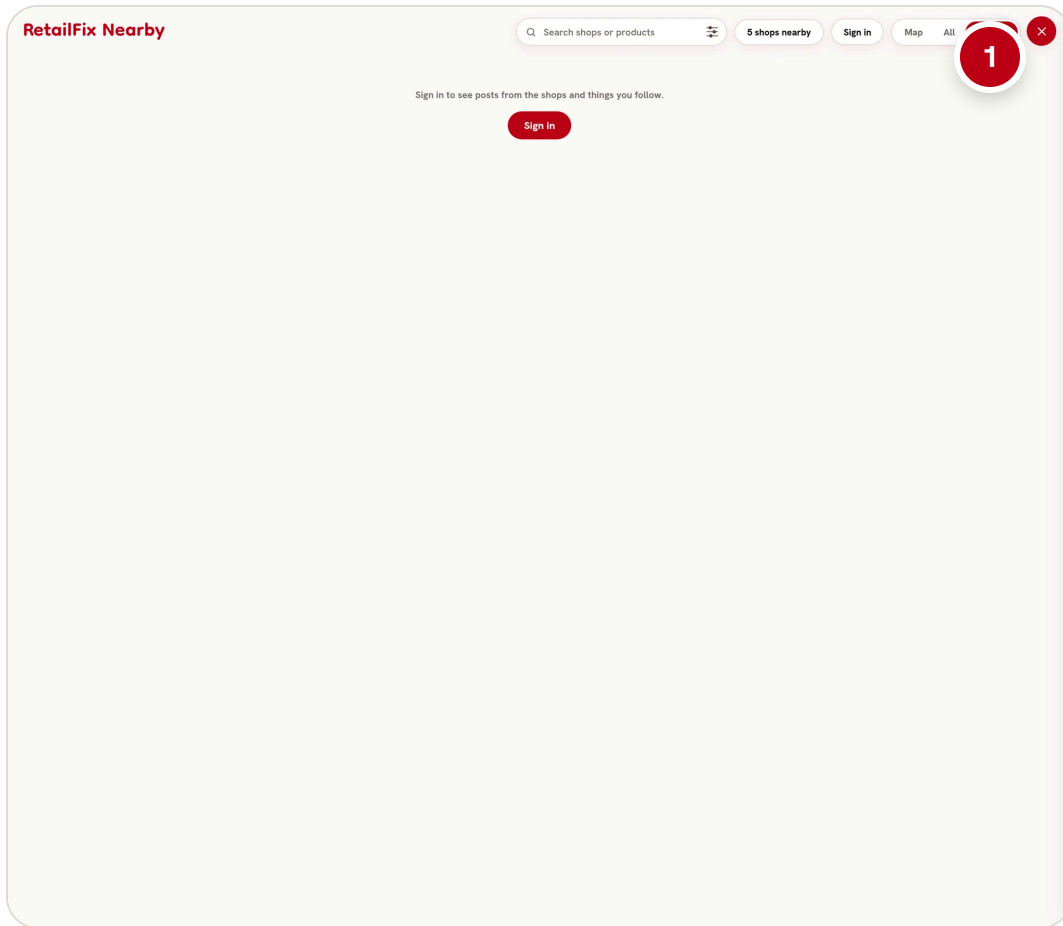

Click or tap **All** **1** for posts from every shop, nearest first. Posts from the shop you're in come first, and the newest offers lead as the list moves outward.

- More posts load as you scroll.
- The list doesn't reorder by itself. When you've moved, **You've moved — tap to update** appears at the top. Clicking or tapping **All** again also updates it.
- Your search and filters apply here too.
- On a computer, the bar at the top folds away while posts are showing. The round button at the top right brings it back.

2 For you

For you **1** needs you to be signed in. Signed out, it says **Sign in to see posts from the shops and things you follow.**

3 What's in For you

Signed in **2**, For you **1** shows posts from:

- the shops you follow
- shops in the categories you picked
- any shop, for brands you picked

With nothing picked yet, it says **Follow a shop, or pick what you like in your profile, and it shows up here.**
